MURRAY'S READING for the RAIL; or Cheap Books in a Large Readable Type, to be published occasionally, and varying in subject from One Shilling and upwards, at the sole option of the Publisher, in such series, or to demonstrate no particular series, as may be found most convenient, instead of the trivial and often immoral publications which are for the most part offered to the public of Railway Readers. He designs to issue those of works at once cheap, valuable, and instructive, not merely to be read on the railway, and thrown aside as the end of the journey, but such as shall deserve a permanent place on the shelves of the library. It will thus form an appropriate sequel to the "Home and Colonial Library."
